## SUMMARY

---

Motivated Computer Engineering student with a solid foundation in full-stack web development. Proficient in React, Node.js, JavaScript, Express.js, MongoDB, CSS, TailwindCSS, and HTML. Skilled in creating RESTful APIs and responsive web applications. Strong problem-solving abilities with expertise in Data Structures and Algorithms using C++, and a commitment to continuous learning and innovation

## SKILLS

---

Languages: Javascript, C++ (DSA)      Frontend: ReactJS, Redux toolkit, HTML, CSS, Tailwind CSS  
Databases: MongoDB      Backend: NodeJS, ExpressJS  
Other: REST APIs, Jwt

## EXPERIENCE

---

### Intern (Remote)

Tatvasoft

June 2024 - July 2024

- During my remote internship at TatvaSoft, I developed web applications using Angular, .NET, and PostgreSQL. Working independently, I wrote efficient code, debugged issues, and optimized database queries. This experience enhanced my technical skills and provided insights into the software development lifecycle and project management

## PROJECTS

---

### MERN Authentication

December 2023 - January 2024

- [Github](#) [Live link](#)
- Engineered a robust authentication module using the MERN stack (MongoDB, Express.js, React, Node.js), enhancing system security and user experience.

### Redux toolkit Shopping cart

August 2023 - September 2023

- [Github](#) [Live link](#)
- Engineered a robust shopping cart feature using Redux Toolkit, which accelerated state management processes by 30%, which describes I am a skilled developer proficient in Redux Toolkit and React, with expertise in crafting modular user interfaces and efficient state management solutions.

## EDUCATION

---

### Computer Engineering

Government Engineering College • Gandhinagar, Gujarat • 2025 • 6.80 CGPA
